CCHA president, Eric Gonneau, and long time member Lori Constable-Smolcic jointly gave a lecture to University of Toronto Nursing Students on April 13th, 2016. The presentation, titled "When Cute Kids Grow Up" explained in detail from a patients perspective life with Congenital Heart Defect, especially as an adult. Students were also introduced to CCHA and explored the implications on the health care system of adding more CHD Adult patients every year. Numerous questions filled all the available time.
